

Infelo SEO ? BEFORE Report

Automatic SEO / AEO / GEO audit

Generated: 2026-07-30T16:15:00+05:45

Project: Foreign_Employment (Department of Foreign Employment, Nepal)

Stack: TanStack Start (React 19) + Vite + Nitro/Cloudflare; Django REST API + SQLite

Render mode: SSR (TanStack Start / Nitro)

Site type: Government portal / local office hybrid + content (notices, publications)

Frontend: web/ (TanStack Router file routes, CmsProvider)

Backend: server/ (Django DRF PublicSiteDataView + CMS models)

Summary

PASS: 12 FAIL: 28 N/A: 6

Verdict: NEEDS WORK

Checklist

[PASS] #1 Page purpose / one topic

Public routes have clear topics (jobs, contact, notices, pages/\$slug). Homepage is portal hub by design.

[PASS] #3 SEO basics

Most public routes set title + description via TanStack head(); copy is topical.

[FAIL] #4 AEO answer-first

No definition/answer-first blurb or FAQ UI on home or key service pages (web/src/routes/index.tsx).

[FAIL] #5 GEO / citable entities

NAP in footer/header but no centralized entity config or citable org blurb for AI citation.

[FAIL] #6 Crawling / internal discovery

Nav OK (web/src/data/site.ts); footer Important Links use href="#" (site-footer.tsx) ? not crawlable.

[FAIL] #7 Indexing readiness

No noindex on public pages, but /admin is not disallowed via robots and has no robots noindex meta.

[FAIL] #9 robots.txt

web/public/robots.txt allows all crawlers but omits Sitemap: and Disallow: /admin.

[FAIL] #10 sitemap.xml

No sitemap.xml in public/ and no generated route; Django has no sitemap view.

[FAIL] #11 JSON-LD present

No application/ld+json anywhere under web/src.

[FAIL] #12 Schema.org types

No Organization/GovernmentOffice/Article/FAQ/BreadcrumbList schema.

[FAIL] #13 Structured data validity

None to validate.

[PASS] #14 Rich results honesty

No fabricated Review/AggregateRating schema present.

[FAIL] #15 Breadcrumbs

PageBar label only; no BreadcrumbList UI/schema on nested routes.

[FAIL] #16 Canonical URL

No rel=canonical or alternates.canonical; no SITE_URL config.

[PASS] #17 Meta title

Per-route titles on index, jobs, contact, content, pages, etc.

[PASS] #18 Meta description

Per-route descriptions present on major public pages.

[FAIL] #19 Headings / single H1

Homepage (index.tsx) has no H1 ? only SectionTitle as h2. Inner pages generally have one H1.

[PASS] #20 Keywords natural

Foreign employment / labour approval terms appear naturally in titles and copy.

[FAIL] #21 Internal links

Nav linked well; footer links dead (#); limited in-body contextual links.

[FAIL] #22 External refs

Few authoritative outbound citations beyond service URLs; footer gov links not wired.

[N/A] #23 Backlinks

Manual PR/partnership strategy only.

[PASS] #24 Page speed

lazy loading on some images; Vite code-splitting via router. Residual: large homepage.

[PASS] #25 Mobile friendly

Responsive Tailwind layouts, viewport meta in __root.tsx.

[FAIL] #26 HTTPS absolute URLs

No VITE_SITE_URL / canonical https base for OG/canonical.

[PASS] #27 CWV hygiene

width/height on emblem/gallery images; font-display via Google Fonts CSS.

[PASS] #28 Image filenames

Assets under web/src/assets use descriptive names (nepal-emblem, gallery-*).

[FAIL] #29 Alt text

Some content emblem imgs use alt="" on homepage; gallery has alts.

[FAIL] #30 Open Graph

og:title/description on pages; missing og:image, og:url, absolute URLs.

[FAIL] #31 Twitter Card

Root has twitter:card only; missing twitter:title/description/image per page.

[FAIL] #32 FAQ schema

No FAQ UI or FAQPage JSON-LD.

[FAIL] #33 Organization schema

No Organization/GovernmentOrganization JSON-LD in layout.

[FAIL] #34 LocalBusiness / Gov office

Local NAP exists in UI; no LocalBusiness/GovernmentOffice schema with geo/hours.

[N/A] #35 Product schema

Not e-commerce.

[N/A] #36 Review schema

No review system; correctly absent.

[FAIL] #37 Article schema

content/\$id notices lack Article JSON-LD despite article og:type.

[N/A] #38 Video schema

Gallery AV albums are photo counts, not video players.

[FAIL] #39 Search Console

No verification meta slot in site config; submit steps not documented in-repo.

[FAIL] #40 Analytics

No GA/Plausible hooks or consent-aware placeholder.

[PASS] #41 EEAT

Contact, team, about pages, officials listed with roles.

[PASS] #42 Helpful content

Services, jobs, notices, downloads serve real citizen tasks.

[PASS] #43 Freshness

Content dates displayed; Django Content.published_at / updated_at models.

[PASS] #44 Topical authority

Category hubs for acts, notices, agencies, labour approval.

[FAIL] #45 Entity SEO

Brand naming inconsistent across strings; no single seo/site config source of truth.

[FAIL] #46 Semantic SEO

Home lacks related-concept sections (what DoFE does, how labour approval works).

[PASS] #47 Content clusters

Nav hub?category?content graph exists.

[PASS] #48 URL structure

Hyphenated lowercase routes (/contact-us, /services-list, /category/\$slug).

[N/A] #49 Image/video sitemaps

Media volume modest; main sitemap sufficient if present.

[FAIL] #50 IndexNow

No publish ping hook; CMS publish path has no IndexNow.

Notes

- Recon: monorepo with web (FE) + server (Django BE).
- Site type agents: T-LOCAL (gov office NAP) + T-CONTENT (notices/articles).
- Production domain assumed https://www.dofe.gov.np based on email/branding; confirm SITE_URL.
